# SINGLETRAILER II

*Always on track*

# THE MODELS

For the first time ever the Singletrailer II is available in two wheel sizes.

## SINGLETRAILER II TOURING 20

---

The Touring model with the compact, classic 20" wheel and large volume tire offers perfect comfort for touring on- and off-road. The two shock mounting positions allow you to switch between 160 mm and 200 mm of suspension travel to optimize the ride for any terrain. At the top-rear of the trailer there is a new expandable cargo bag that offers additional storage space so that you always have what your child needs on tour. A flag, mudguard, and sun canopy are now included as standard equipment to keep your precious cargo safe and comfortable in all riding conditions.

**MSRP: € 1,739.00**

## SINGLETRAILER II SPORT 24

---

Our new Sport model with 24" wheel is optimized for offroad use. The larger wheel provides more comfort off-road and still offers 180 mm or 220 mm of travel via two shock positions. This makes the Singletrailer II Sport the ideal choice for all sporty parents who primarily travel off-road. The newly designed drawbar improves compatibility with 29" mountain bikes and E-MTBs without extending the trailer's wheelbase. With the new Singletrailer II Sport, climbs become child's play and the descent is pure fun for both rider and passenger.

**MSRP: € 1,669.00**

# THE UPDATES

We brainstormed a lot about how we can make our unique off-road capable bicycle trailer even better and came up with plenty ideas...

New drawbar offers more tire clearance for 29" wheels and a new hitch prevents contact with the rear wheel

Shoulder pads with Velcro fasteners ensure they stay in the ideal position

New side-windows for better ventilation

Cover tensioning system with o-ring and stopper offers better cover adjustability

Flag for better visibility in traffic

Additional storage space in an expandable cargo pocket

New, adjustable stand provides a variable angle and position for maximum stability

Two wheel sizes, 24" for offroad and 20" for touring use
